

New Forest Bowls Association

Aussie Pairs Revised Rules

As this is a new competition and in the interest of time the match has been shortened for the Round of 32 and thereafter

1. If the jack (when delivered) finishes outside the confines of the rink (outside the rink markers or in back ditch) it is declared dead and will need to be recast by the opposing team/player
2. On the first end the lead delivers two of their four bowls, the lead and skip then change ends. The skip then plays four bowls before swapping ends once again with the lead, to allow the lead to play their final two bowls
3. Once all bowls are played the end is declared finished
4. The order of play is reversed on the next end with the Skip leading off. This sequence continues throughout the whole of the match with the lead leading off on odd ends and the skip leading off on even ends
5. Scoring is per Laws of the Sport
6. The team who scores the most shots on the previous end plays first on the following end and delivers the jack
7. **The team with the most shots after 18 ends is the winner.**
